I am thoroughly disillusioned by your approval of the Atlantic Coast Pipeline. Fossil fuel energy companies have a clear record of habitually lying about all the great things they will do for us and then poisoning people instead. Putting in new infrastructure to support fossil fuel use guarantees we will be continuing to rely on it for decades. If you don't reverse this decision, I will be donating to and voting for a more progressive candidate in your next primary. If no progressive challenges you, you cannot count on my support. Please reconsider this disastrous decision, consider you promises to us and your conscience, and withdraw approval.
